

Treasury Department,

BUREAU OF THE MINT,

P Washington, D. C., June 12, 1891.

O. C. Bosbysshell, Esq.,

Superintendent Mint U.S.,

Philadelphia, Pennsylvania.

Sir:

I find upon examination of your Form 193 for May that you used nearly 17,000 ounces of trade dollar bullion in the coinage of dimes, which should not have been done. As you have been heretofore informed, the law passed at the last session of Congress expressly provides that this bullion shall be converted into standard silver dollars. Any of this silver that you used since the first instant must be replaced from silver resulting from the melting of uncurrent coin transferred to you for recoinage.

Respectfully yours,

Director of the Mint.
